Management

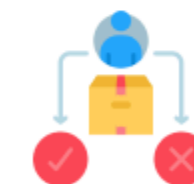

NDA to Be Signed Prior to  
Onboarding

Ease of BACKEND  
MANAGEMENT

Free consulting for  
startups and businesses

Single Point of Contact  
from Start to Finish

# Engagement Hiring Model

Criteria	Time & Material	Project-Based
Definition	Flexible model where clients pay for the actual time and resources used.	Fixed scope and budget model, where a specific deliverable is agreed upon.
Scope	Can evolve over time based on client needs.	Clearly defined and limited to the scope agreed in the contract.
Cost Structure	Costs depend on the time spent and resources used.	Fixed cost based on the agreed deliverables.
Flexibility	High flexibility for changes in scope or requirements.	Limited flexibility once the scope and cost are set.
Client Involvement	High client involvement to track progress.	Lower client involvement after project initiation.
Risk	Lower risk for the client since costs are tied to actual work.	Higher risk for the client if scope creep occurs or project overruns.
Payment Terms	Based on hourly rates or resource usage.	Payment typically tied to project milestones or completion.
Ideal For	Projects with evolving requirements, ongoing tasks, or long-term engagements.	Well-defined projects with clear start and end goals.

# Our Partnership Model

At Krazio, we offer flexible partnership models to meet your business needs, whether you're seeking a referral, strategic consulting, offshore development, or technology expertise.

## 1. Referral Partner

Refer potential clients to Krazio and earn incentives for every successful project. No involvement in execution—just leverage your network to help businesses thrive.

## 2. Strategy Consulting Partner

Work with Krazio to offer expert consulting and strategic solutions that drive digital transformation and operational efficiency for your clients.

## 3. Offshore Development Partner

Access high-quality development teams offshore to scale your resources cost-effectively while ensuring timely, high-performance delivery for your clients.

## 4. Technology Partner

Integrate scalable solutions into your offerings by partnering with Krazio. We provide expertise in areas like AI/ML, cloud, and custom software development.

# Client Testimonial

## Markiyan Podlyashet

*COO*

Easy communication, high-quality project implementation, experienced tech experts, and meeting deadlines were amazing!

With the help of the Krazio's team, the customer made a successful agreement with their end client for a long-term partnership. Their overall work ethic impressed the client.

## Syrne Hayrapetyan

*Relationship Manager*

Krazio Cloud always looks for ways to make the relationship work for both sides

The client is satisfied with Krazio's communication skills, speed, and quality of work.

They checked in with the client to ensure high-quality services.

## Ruslana Gudenok

*CEO*

They asked every possible question to find the right people for our needs. Krazio Cloud found several qualified candidates, and the client hired two of them for his project.

The client was impressed with the flexibility of KC's working process, and how selflessly they work on every project.

# Client Testimonial

## Tali Bartal

*Product Manager*

Krazio Cloud has excellent communication. They give precise estimates, divide the project into manageable tasks, and clearly excel in project management.

Krazio Cloud consistently sends updates ahead of time, so everything is clear on our side. If they encounter an issue, they promptly let me know. I'm very satisfied with their work.

## Kjell Garatun-Tjeldstø

*CEO*

Krazio Cloud efforts have increased the business' bandwidth, allowing the internal team to concentrate on other processes.

They have strong communication skills and have managed to adhere to project deadlines despite the tight timelines.

## Larissa Paschyn

*FOUNDER*

Despite my lack of coding experience, they were able to take my requirements and turn them into a functional, well-designed app.

I was highly impressed with their work, and it's already gotten a lot of positive feedback for its ease of use. I appreciated how upfront and transparent they were with their work.

“

From day one, our mission has been clear: to create smart, immersive, and future-ready digital solutions that solve real problems and help companies grow. Whether it's through cutting-edge AR/VR/XR experiences, AI-driven tools, or custom app and web development, we aim to make technology feel human, useful, and impactful.

As we continue to grow and evolve, we remain grounded in our core values: innovation, integrity, collaboration, and giving back. A part of what we earn is reinvested in education, community development, and digital literacy because we believe success means nothing unless it lifts others too.”

**Rahul Bhatt**

Founder - Krazio Cloud

We don't just build software. We build solutions that matter, experiences that engage, and partnerships that last. Every client, every project, and every challenge we take on is an opportunity to push boundaries and create something meaningful.

As we continue to grow, we remain deeply committed to quality, integrity, and innovation, the values that have shaped Krazio Cloud from day one.

“Let's build the future, together”

**Harsh Parekh**

Founder - Krazio Cloud

# We're Closer Than You Think

We're not miles away, we're just a call or email away. Let's connect and create something amazing together!
